Re: MCI Access Transmission Services Corp. Safety-Valve Relief Application

Dear Ms. Nickerson:

MCI Access Transmission Services Corp. believes that the block of numbers that it is requesting is insignificant in relation to the total number in the Lewes rate center and therefore will have no long-term impact on the numbering resources in the State. The 1000 requested numbers represent less than 2% of the 60,000 numbers in the Lewes rate center. Additionally, because there are no available blocks to be assigned, a new code will need to be opened up thereby increasing the number of blocks available in the State.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Bonnie Metz
